**FREE, FREE, FREE,**

AT THE  
**Fair Store!**

A Large Crayon  
Portrait of Your-  
self

**FREE OF CHARGE.**

In order to advertise our business more extensively and in a desirable manner, we have decided to present our customers a splendid enlarged portrait of yourself or friend. The conditions on which you receive this beautiful and appropriate gift are exceedingly light and worthy your consideration.

### We Will State Them in Few Words:

Buy \$15.00 worth of goods by paying us the very lowest cash prices and the deed is done. You can then furnish us with a cabinet photo, panel, tintype or other picture of yourself or friend and we will have it enlarged at once, and present it to you absolutely free of charge.

The size of the picture will be 14x17 inches and the frame 25x28 inches, the latter being of late design in antique steel bronze or gilt. These pictures are from the studio of one of the best artists in Chicago, and were never sold for less than \$10.00 or \$15.00 without frames. Remember, we do not ask you to buy large bills at any one time, but will furnish you with a card, on the margin of which are placed figures of convenient amounts, from 25 cents to \$1.00—making a total of \$15. When you make a purchase we punch out a set of these figures, and when all are punched out we will present you with the picture.

Call at our store and see a sample of the work, and please do not forget that we give the picture of YOURSELF, WIFE, CHILD, FRIEND, FATHER, MOTHER, SWEETHEART, or last, but not least, MOTHER-IN-LAW, free of charge. "A thing of beauty is a joy forever."

What could be nicer for home adornment than one of these elegant CRAYONS?

We have also made arrangements with a large frame manufactory to mount and frame these portraits for our patrons in the best style at one-fourth the usual cost of such frames. You can have either gilt or bronze frame with first-class French plate glass, all ready to hang on the wall.

YOU ARE, HOWEVER, NOT OBLIGED to purchase a frame at all, or you can purchase it at some other store. This does not matter to us; we give you the picture and sell you the frame at cost if you wish it.

Yours Generously,  
**The Fair Store,**

Difficulties.

A Large Force Guards a Can-

### Congressional Proceedings.

WASHINGTON, July 24.—The House proceeded, after a short parliamentary wrangle, to vote upon the committee amendments to the bankruptcy bill. These amendments were principally verbal.

In view of the fact that the bill had never been read in the House, McMillan of Tennessee demanded a separate vote on each amendment, and much time was thus consumed.

The Committee on Amendments having been disposed of, an amendment was adopted enforcing the laws of the States giving wages for labor a preference.

The House passed the Torrey bankruptcy bill, with important amendments—yeas 117, nays 84.

### REMARKS.

Morgan introduced a bill to fix the limit of value and provide for the free coinage of silver. Referred to the Committee on Finance.

It recites that the market value of silver bullion is rapidly approaching the value of gold on the standard relation fixed by the laws of the United States; that there are no provisions of law for the coinage of standard silver dollars or the purchase of silver bullion by the Government when the value of silver bullion exceeds one dollar for 47 1/2 grains of pure silver. It therefore provides that the unit of value in the United States shall be a dollar of 412 1/2 grains of standard silver or 25.8 grains of gold; that these coins shall be legal tender for all debts, public and private, that any owner of silver or gold bullion may deposit it at any mint to be formed into dollars or bars for his benefit, without charge.

He called the special attention of the committee to the bill, which he said was the same as had already received a majority of 17 in the Senate. He had introduced it because he was convinced that, in the rapid advance of the price of silver bullion in the world, the time is not far distant, to say the least, when silver and gold bullion will be on a par with each other. When that time does arrive, the law, as it now stands, would not permit the Government to buy silver bullion if there was any shade of appreciation in its price beyond the price of gold; and there was no provision of the law for the coinage of any silver except that purchased before silver reached that point. In view of what appeared to be in the air as well as on land and on sea, in regard to the immediate future of the country, he thought it would be well enough to make a provision so that silver or gold bullion would not be withdrawn from the United States by other interested Governments and hoarded up in their great banking institutions.

### The Senate resumed the consideration of the Indian appropriation bill.

### A Mob Squelched.

LONDON, July 24.—A dispatch from Valparaiso states that a mob attacked the stores in the city of Santiago, the Capital of the Republic, and sacked them. The military was called out and order restored.

### Steamer Burned.

By Cable and Associated Press.  
LONDON, July 24.—The following particulars of destruction by fire of the National line's steamer Egypt are received: The Manhattan sighted the Egypt in full blaze in latitude 40° 28' north, longitude 38° west, but being laden with oil dared not go near the burning vessel. She lowered her boats, however, and saved all on board. Captain Robinson, of the Manhattan, had only enough provisions for forty persons, and a discussion was had as to whether or not to make Azores, 250 miles distant. It was finally decided to proceed for Dover, and every one to be placed on short rations. There were 640 head of cattle on the Egypt, all of which were either burned to death or, breaking loose, plunged overboard and were drowned. For a time there was much confusion on the Egypt, but no panic occurred. The National company chartered a tug at Dover to meet the Manhattan and supply her with provisions. She started at 6 o'clock this evening with a full supply of provisions and other necessities for the rescued people.

### The Colorado Central Washout.

By Associated Press.  
DENVER, July 24.—The present washout on the Colorado Central is the most disastrous that has occurred since the road was built. The loss is estimated at \$250,000. The amount of track washed out covers altogether a distance of twenty miles—five miles from Forks Creek to Smith Hill, and fifteen miles from Golden to Floyd Hill.

The iron bridge at Forks Creek looks like a bundle of wire it has been so tangled up.

It is impossible for the railroad men to estimate the damage done to the road, but they admit it must be very large, as the road up through there is a very costly piece of railroad construction.

Two work trains and a hundred men have been working on the road since Tuesday noon, and if nothing further happens it is promised trains will be able to get to Forks Creek some time before noon to-day.

### Nebraska Republican Convention.

By Associated Press.  
LINCOLN (Neb.), July 24.—The Republican State Convention remained in session all night. At 9 o'clock this morning the committee on resolutions reported and the platform was adopted.

It endorses Harrison's administration, approves the national legislation on silver, endorses the disability pension bill, declares in favor of the service pension bill, favors the Australian ballot, opposes land monopoly, recognizes the right of labor to organize, and favors the control of the railroads by the legislature.

The following ticket was nominated: For Governor, L. D. Richards; Secretary of State, C. Allen; State Auditor, Thomas H. Benton; Treasurer, Capt. J. E. Hill; Attorney-General, H. H. Hastings; Land Commissioner, George Humphreys; and State Superintendent, A. K. Gawdy.

### People Who Oppose a Federal Election Law.

CHARLESTON, July 24.—B. R. Tillman, running on the alliance plan for Governor, arrived here yesterday, but says he will not speak at the Democratic mass-meeting to-day, because he fears assassination. The police and detectives were stationed at his hotel all yesterday, and this morning they were reinforced by 100 of Tillman's chosen band from Edgefield. No fears are entertained here of his molestation, although the city is thick with rumors of a very wild character.

### The Boycott Ignored.

By Associated Press.  
ATLANTA (Ga.), July 24.—A public meeting was held at the Chamber of Commerce to-day, and resolutions protesting against the passage of the election bill were passed. The resolutions ignored the proposed boycott against Northern tradesmen.

### Will Remain Neutral.

By Cable and Associated Press.  
BERLIN, July 24.—Dispatches from the City of Mexico state that the Mexican Government will maintain a neutral attitude in the dispute between the Central American Republics; also, that the United States and Mexico will offer to act as arbitrators.

### Dropped Dead.

By Associated Press.  
CARSON, July 23.—Frank Lergu dropped dead in Jake Klein's brewery this afternoon of heart disease. He was a native of Germany (Lower Bavaria), aged 57 years.

### Silver Going Up.

By Associated Press.  
WASHINGTON, July 22.—"The price, 50 1/2d an ounce, quoted in London yesterday for bar silver, while unprecedented, perhaps," said Director of the Mint Leech, this afternoon, "is largely due to speculation in silver. Of course, the primary cause is the passage of the Silver bill. You will observe, if you have watched the stock market, that silver is doing some very lively upward sprinting in the United States just at present, although to-day it has dropped a point."

"Certain persons in New York have for some time been engaged in getting a corner on silver, pending the passage of the silver bill. The New York City Western National Bank has alone stowed away in its vaults in the neighborhood of \$7,000,000 ounces, while upward of 2,000,000 ounces are in the hands of others in that city. The law goes into effect September 13th next. It will be impossible to tell with anything like accuracy what will be the market price for silver until that date arrives, and for one month thereafter. It may have a still higher tendency, inasmuch as we are compelled to buy 4,500,000 ounces a month, and it may be several points lower than it is to-day. But, whatever is the market price, that the Secretary of the Treasury is bound to pay. "We have only to-day received the Silver bill officially from Congress, and are now engaged in studying its provisions."

### Boarding House Blown Up.

By Associated Press.  
SAVANNAH (Ga.), July 24.—W. L. Ballard's boarding house in this city, three stories high, was blown up early this morning, and three persons were killed and one injured. There were thirteen people in the house. The explosion shattered the walls and they collapsed in an instant and fell a mass of ruins. Most of the occupants of the house were asleep, and were hurled under their beds and either buried under the falling debris or thrown on top of it. The killed are Mrs. J. Bullard, Lockley and Gus Robie.

The cause of the explosion is a mystery. There are many rumors of an ugly nature, but nobody will take the responsibility of making a direct statement. One man insinuates there had been a row in the house towards the end of a jollification in which the inmates were indulging.

### To-Day's Races.

By Associated Press.  
SARATOGA, July 24.—The first race of five furlongs Blue Rock won, Worth second and Geraldine third. Time, 1:12 1/2.

The second race, Flash stakes for two-year-olds, half a mile, Monterey won; Sadie McClelland second and Palestine third. Time, 49 3/4.

The third race, Trave stakes for three-year-olds, mile and a half, Sir John won; Frontenac second and Burlington third. Time, 2:39.

In the fourth race, a mile and a sixteenth, King Crab won, Lavinitte Belle second, and Australite third. Time 1:49 1/4.

In the fifth race, six furlongs, Bradford won, Pallmall second, B. B. Million third. Time 1:16.

### Stopped Work.

By Cable and Associated Press.  
LONDON, July 24.—Work on the London and St. Katherine docks has stopped, the Dock Laborers' Union having ordered out the men employed on the docks in consequence of the Directors refusing to allow the representatives of the Union to go inside of the docks to ascertain if the men have the proper cards issued by the Union.

### What Advanced Prices.

By Cable and Associated Press.  
LONDON, July 24.—Chaplin, Minister of Agriculture, delivered an address at the Lincoln agricultural show to-day. He said the recent rise in agricultural products was due to the advance in the price of silver, consequent on the passage of the silver bill in the United States Congress.

### A Woman Assaulted by Strikers.

By Associated Press.  
NEW YORK, July 24.—The striking cloak-makers are becoming turbulent and are resorting to acts of violence to enforce their demands. Last night twenty of them entered the apartments of Mrs. Celia Bender, at No. 4 Allen street, and beat her badly. She employs a dozen hands, who these rioters chased away, and smashed Mrs. Bender's furniture.

### Oregon Express Derailed.

Special to the GAZETTE.  
NORD (Cal.), July 24.—The north-bound Oregon express was derailed a mile and a half south of Nord. Two sleepers, a coach and the mail and express cars are off the track. Nobody was hurt, except two tramps, who were badly bruised. The damage is slight, and the train will be on the track by 11 A. M.

Bottom, the Weaver, speaks.

The New York Herald is among

the oldest, wealthiest and most

successful of metropolitan jour-

nals, and it claims to have the

largest circulation of any news-

paper in the world. It has reached

this high estate by ever keeping to

the front as a news-gatherer, and

if its editorial columns had been

managed with ability at all ap-

proximating to that exhibited in

its news department, it would be

one of the most influential organs

of public opinion in the country.

But for calm, complacent, dense

and irremediable assiduity in its

editorial department probably no

rival to the Herald exists in the

United States.

In an editorial in its issue of July

9th the Herald says:

Perhaps a silver exclusion bill could

be based on the principles of the

C. L. S. Restriction Act, forbidding the

importation of silver into the United

States. Such a measure would be effec-

tive in closing the silver market, and

thus, by cutting off the supply, would

bring the price of silver to a point

where it would be no longer worth

exporting. The machinery for the

importation of silver exists, we believe, in

the United States.

The suggestion that the Govern-

ment of Great Britain, or private

individuals in that country, are

ready to embark in the business

of changing English shillings into

American dollars as soon as the

business will pay, is a sugges-

tion that for wild ignorance can-

not be excelled anywhere. To

manufacture coins in imitation of

the money of any nation is a felony

under the laws of every civilized

and semi-civilized country on

earth. If this were not so we

could have marketed the Comstock

silver at \$1.32 per ounce during

all the years since 1873 by stamp-

ing it into English shillings and

French francs and German thal-

ers and Italian ducats, and these

countries could have responded by

stamping their silver into Ameri-

can dollars. It is among the possi-

bilities that some spurious coin-

spurious in that it was not made

at the mints—has been secretly

manufactured and introduced into

circulation in Europe and America,

but the possibilities of detection,

with loss of capital and liberty

have doubtless deterred any ex-

tensive operations of this charac-

ter. The value of the editorial ob-

servations of the Herald on the sil-

ver question generally must be

estimated at very low rates, since

it is so exceedingly stupid as not

to know that counterfeiting is a

crime.

UNDER the heading of "The

Transition of Nevada," the San

Francisco Bulletin of last Tuesday

contained the following:

The report comes from unofficial

sources that the census will not

show that there are now more

than 45,000 people in the State of
